

## MagnetoHold

Draper's MagnetoHold system supports weight suspended from any magnetic surface.

When engaged, MagnetoHold acts as a super-strong magnet that can support hundreds of pounds. When disengaged, MagnetoHold acts like a refrigerator magnet that easily detaches from the surface. MagnetoHold can be customized for larger or smaller loads as needed.

### FEATURES:

- No power required
- Easy application and removal—no residue
- Single unit supports up to:
  - 500 pounds in lateral direction (parallel to surface)
  - 700 pounds in normal direction (perpendicular to surface)
- Rated for unpressurized air travel
- Rated for underwater depth up to 33 ft.

### IDEAS FOR APPLICATIONS:

Climbing / Fall arrest / Tie-down / Temporary anchor point / Rigging
